

Petenwell and Castle Rock are the 2nd and 5th largest lakes in Wisconsin. WRPCO is selling all their non-project lands to developers and it is estimated that by the year 2010 there will be between 6 and 10 thousand new homes around our 2 lakes. It is imperative that WRPCO meet its license obligations. The PCPOA is of the opinion (based on past experiences) that the only way WRPCO will meet its obligations is through a FERC hearing and constant supervision by FERC thru the license period.

Senator, we are asking you to secure this hearing. The PCPOA will do its part for the public as we have in the past.

I have enclosed for your perusal a "Chronology of Events" which shows some of the activities the PCPOA has been involved in for the public over a 25 year period.

We thank you in advance for your support.

Frank J. Luedtke
President
